What are the benefits of getting a new card?

 **Lower your interest rate.**

 **Increase your line of credit.**

 **Get more bonus points.**

 **Reduce your monthly payments.**

 **Consolidate your credit.**

 **Transfer your balance.**

Get Started!

Want to apply for a Credit Card or Loan but not sure what you will get approved for? See our helpful chart below.

750-850 Excellent
720-749 Very Good
Most favorable interest rate. Lower monthly lease or loan payment. Higher likelihood of qualifying for a lease or loan. Access to incentives offered by the manufacturer or seller.

660-719 Good
580-659 Fair
Higher down payment may be needed. Co-signer may be necessary.
You may not be able to qualify for the loan at that amount which means a less expensive purchase may need to be considered.

500-579 Poor
300-499 Very Poor
Credit may be denied altogether but there are options!

Get Started!

Do you have bad credit? Not a problem! We can still help you get a credit card.

Many people think that just because they have bad credit they don't have options - this is not true! You have a couple of routes to go down depending on where your credit score is.

There are unsecured credit cards, secured credit cards, & prepaid cards. Each card provides its own unique benefits and will help you rebuild your credit.

The goal is to be responsible, make your minimum payments and keep your revolving balance on the card below 50%. Once you decide what kind of card you want, we can match you with the best offer!

 **UNSECURED CARDS**
Unsecured credit cards are built specifically for people with okay/bad credit. Although approval is not guaranteed, this is a great option to help rebuild your credit as long as you can make timely payments. Make sure to try and pay your entire balance monthly or at least make your minimum payments to help build your credit!

 **PREPAID CARDS**
Prepaid credit cards are another fantastic option if you are unable to get approved for a secured or unsecured card. You get the convenience of being able to use plastic and not having to carry around cash. These credit cards act in a similar fashion to a debit card where the funds are taken directly out of the account as you spend the funds.

 **CATALOG CARDS**
Catalog cards are great for establishing a better credit rating if you have bad credit. They usually have minimal requirements for approval and sometimes guaranteed approval. Purchases are limited to specific online stores or catalogs.

WHY DOES BEDROCK SPECIALIZE IN THE FEDERAL RETIREMENT MARKET?

The opportunities are endless

- Federal and Postal Employees will have the opportunity to roll a staggering volume of retirement assets into IRAs over the next several years.
- FEGLI (Life Insurance) becomes increasingly more expensive as federal employees age - creating an opportunity for life insurance replacements.
- The U.S. Federal Government represents both the single largest employer in the world and, when coupled with the U.S. Postal Employees, some of the oldest workers in the country.
- In addition to a federal pension (a FERS or CSRS Annuity) federal employees are eligible for a Defined Contribution Plan called the Thrift Savings Plan (TSP) which allows for in-service distributions making their retirement assets rollover eligible sometimes years before they retire as long as they are at least 59.5 years old.

Why You Need Credkeeper™

- Control Client Reviews
- Content Management
- Social Media Automation
- Lead Generation

Credkeeper™ is a patent-pending software application that influences how your prospects and clients interact with your brand online. Your expertise and authority are what you offer clients as a primary reason to hire or buy from you. We closely manage how you are perceived, greatly enhancing the trust placed in you, transforming your business, and helping you win more clients.

Google coined the acronym **E-A-T** - as in **E**xpertise, **A**uthority and **T**rust. **E-A-T** should be your focus if your credibility influences who buys from you. And unless your clients don't have the internet... you need to control your online **E-A-T** - because your business depends on it.

Are You In an "Expertise, Authority and Trust" Business?

If someone hires you based on what they think you can do for them, then the only thing you really sell is yourself.

Modern Business Leader

Being a modern business leader requires a unique set of skills and qualities. It involves the ability to accept to rapidly changing technologies and market conditions, as well as the ability to inspire and lead a diverse team of employees. Strong communication and decision-making skills are also essential, as is a deep understanding of the industry and customer needs. Additionally, modern business leaders must be able to think strategically and make data-driven decisions, while also being able to navigate the complex regulatory landscape. They should also be aware of the social and environmental impact of their business and take actions to mitigate them. Moreover, they are expected to have a strong moral and ethical compass, which they can follow while making difficult decisions.

The hero section features a dark background with a perspective view of a modern building's facade. On the left, the text "Cultivating Highly Effective And Intentioned Entrepreneurs" is displayed in large, white, sans-serif font. On the right, there is a sign-up form for a "FREE Enterprise Newsletter". The form includes a "Name" field, a "Company" field, a "First Name" field, a "Last Name" field, and a "Submit" button. Above the form, it says "Sign Up! FREE Enterprise Newsletter" and "Receive Exclusive one of a kind content and special offers available nowhere else".
